CAREER OBJECTIVE

Energetic IT professional with a First-class Honours degree in Computer Science (Web Technology) from Universiti Tun Hussein Onn Malaysia (UTHM). Passionate about software development and technological innovation. Proficient in API development, web and mobile application development, and data analysis. Seeking a full-time opportunity to develop skills and contribute to organizational success.

EDUCATION

Bachelor's Degree | Universiti Tun Hussein Onn Malaysia (UTHM) | Oct 2020 – Jan 2024

- Major: Bachelor of Computer Science (Web Technology) with Honours
- CGPA: 3.91 / 4.00 (First-class Honours)
- Final Year Project: Developed a web-based Clinic Management System using HTML5, CSS, Bootstrap, JavaScript, PHP, and MySQL with key modules including profile management, staff management, doctor management, patient management, appointment scheduling, medicine stock control, MC and invoice generation, and profit analysis.

WORKING EXPERIENCES

Information Technology Intern (Full Stack Developer) | Eco-Shop Marketing Sdn. Bhd. | Aug 2023 – Jan 2024

Job Scopes:

- Developed end-to-end API development and backend optimization.
- Developed an efficient internal mobile app using Flutter and Dart.
- Contributed to the enhancement of internal web applications by leveraging ASP.NET and C#.
- Collaborated closely with cross-functional teams to integrate and optimize features within the Inventory Management System (IMS).
- Resolved technical issues and contributed to R&D initiatives.
- Played a key role in the QA process, executing unit tests, participating in testing phases, and upholding application quality standards.
- Leveraged MySQL for advanced data analysis and created insightful Grafana dashboards for effective data visualization.

Key Achievements & Exposure:

- Proficient in Flutter, Dart, ASP.NET, C#, Agile methodologies, and RESTful APIs.
- Experienced in UI/UX design, mobile and web application development, testing frameworks and version control.
- Skilled in MySQL for data manipulation and Grafana for data visualization.

SKILLS

Programming Skills

HTML5, CSS, JavaScript, PHP, Flutter, Dart, ASP.NET, C#, MySQL, Microsoft SQL Server, RESTful API, ASP.NET MVC Framework, Bootstrap, C Programming, C++, Java, Python, R Programming, Ajax, jQuery

Computer Skills

Postman API, Microsoft Office, Figma, Grafana, Microsoft Power BI, Microsoft Azure, Adobe Photoshop

Soft Skills
- Effective communication skills and interpersonal skills
- Excellent time management and organizational skills
- Excellent problem-solving skills

LANGUAGES

- Mandarin (Fluent)
- English (Proficient)
- Malay (Native)
- Hokkien (Native)
